

Class Announcement

NFA Strategy and Tactics for Initial Company Operations

At Snohomish Fire Department
\$20.00 per student

January 21 -22, 2006
8:30 am to 5:00 pm

This class is designed to meet the needs of company officers responsible for managing operations. STICO is designed to develop the management skills needed by company officers to accomplish assigned tactics at structure fires.

Students completing this course will be able to explain the purpose and the use of the Communication Model and the Quick Access Prefire Plan in tactical operations at fire incidents; define the relationship between incident priorities, strategy, tactics, and implementation in the Command Sequence; Select the appropriate strategic mode based upon considerations of risk/benefit and available resources, select appropriate ventilation tactics; select appropriate rescue tactics; operate within an appropriate Incident Command System organization at a fire in single family dwellings.

Registrations will only be made on line at www.fftraining.org and please include a purchase order number with your registration.
